DISTRIBUTION CENTER SERVICES

Maintenance that matters.

The ACT Group
Environmental Services Division

BULK MATERIAL HANDLING · SINCE 1991

SERVICE TAILORED TO YOUR OPERATION

Your conveyor is the building. When it stops, the building stops.

Based in Fontana, California, The ACT Group has served the West Coast since **1991**. We know your equipment is the heart of the operation, and we know what a stopped sorter costs during peak. Whether you want a preventive maintenance plan built around your shift schedule or an emergency crew on call **24/7**, we are the answer.

Same crews, same certifications we send into cement plants and quarries — millwrights, welders and mechanics, all factory trained, OSHA and MSHA certified. They arrive with the tools and the parts, and they work around your operation instead of shutting it down.

Services

- Equipment lubrication
- Belt removal and install
- Repair and service of rollers and chain conveyors
- Fluid distribution components
- Sorting conveyor service
- System troubleshooting
- **Replacement parts** — stocked and delivered

How we work with DCs

- **Preventive maintenance plans** written to your throughput and shift pattern, not a generic calendar
- **24/7 emergency response** — a real person answers, a crew rolls
- Scheduled outage and shutdown support labor
- Written report after every visit, so you know what was touched and what is next
- Crews dispatched across California, Nevada, Oregon and Washington

Incline, roller and chain conveyor service

Flex conveyor and dock equipment

24/7	1991	OSHA 30	CA · NV · OR · WA
EMERGENCY CREW ON CALL	SERVING THE WEST COAST SINCE	MSHA PART 46/48 TRAINED	CREWS DISPATCHED

Tell us the facility, the line and the problem.

You will get a real person — not a ticket number. Registered with Avetta, BROWZ and ISNetworld. CA Lic. #700731 (Class B) · NV Lic. #0072789 (A14/A20).
